

Fashion & Textiles: Innovation in Sustainability

LCB Depot's exhibition & events programme highlights work from a different creative industry every month. In April 2020 the focus is on fashion and textiles.

Artists and designers from across the country including those based in Leicester and at De Montfort University will explore sustainable practices from bespoke tailoring of long lasting garments to innovative new materials.

Zero Waste: Zero Cost

Mollie Edge

Made using donations of waste fabrics from garment factories in Leicester

For this collection I wanted to not only create using waste materials, but also practice zero waste techniques throughout. I produced the whole collection without spending a penny, hopefully proving that new isn't always necessary.

Artist Bio

Final year textile design student at DMU, with a mixed media specialism and a focus on slow fashion and responsible consumption.
